META UNITY

MÖBIUS LOOP DAO

Matrix & Tier Strategy

The M and T S-12 Matrix is a 12-level system backed by the Möbius Loop DAO, offering 100% distribution and Weekly royalty earnings through NFT integration.

M & T (Matrix & Tier Strategy)

Discover a dynamic system that goes beyond traditional gaming and NFT offerings, unlocking a wide range of opportunities through the M and T (Matrix and Tier) Strategy.

The world's first 12-tier matrix that enables you to earn both passive and active income on a continuous basis, powered by Möbius Loop technology and governed by a Decentralized Autonomous Organization (DAO).

A Weekly Royalty NFT is a non-fungible token that entitles its holder to receive Weekly income payouts from a shared revenue or royalty pool. These payouts are automated through smart contracts and funded by platform earnings, community contributions, and ecosystem revenues.

We're currently unveiling just a glimpse of this powerful program — a preview of the exciting ecosystem ahead. M & T is designed for those seeking more than income — it's a space rich with opportunity, growth, and meaningful engagement.

MÖBIUS LOOP DAO
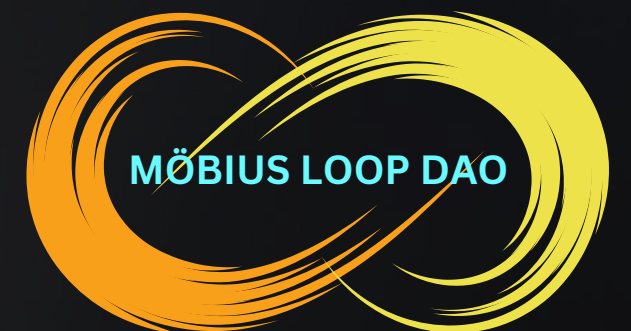

Welcome to the Meta Unity Co-Matrix Global Network – an exclusive community where success is collective, and everyone has the chance to rise together!
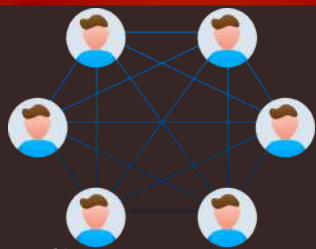

The world's first truly decentralized project, designed to unlock 100% of your success potential.

No company, no admins, no control — only true decentralized freedom.

100% Automated Package Upgrades – Seamless Growth! Unlimited Automatic Recycling of Ranks and Slots!
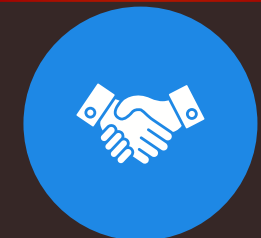

100% SECURE
Fully Automated | 100% Peer-to-Peer | Safe, Secure, and Completely Transparent

No Time Limits, No Expiry – Your Rank Slots Are Permanent and Last for Life!

Backed by Verified Smart Contracts – Empowering You with True Financial Freedom!

BNB SMART CHAIN BLOCKCHAIN

BNB Smart Chain is a decentralized, open-source platform that enhances Ethereum by enabling faster, low-cost transactions. Using Proof-of-Stake, it supports smart contracts and dApps, with BNB as its native token for security and governance.
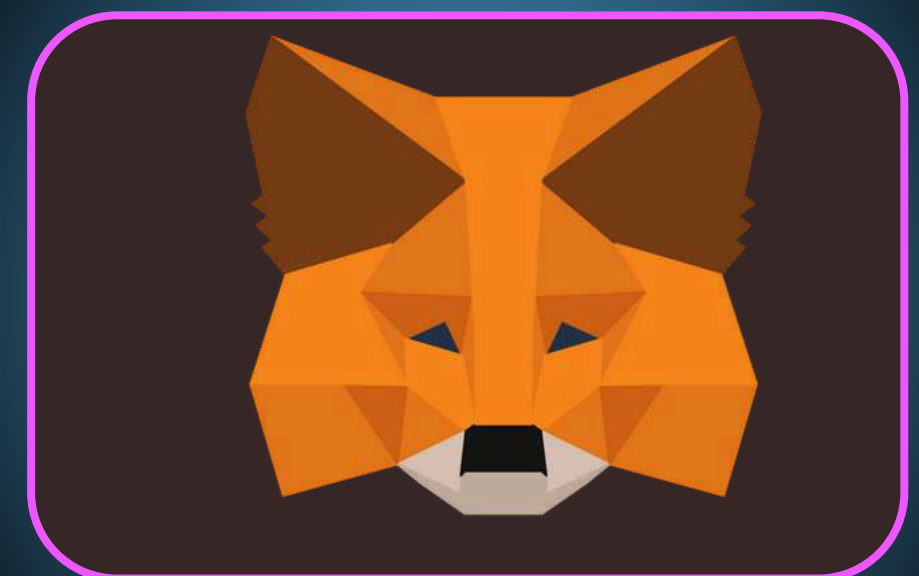

Token Pocket

Token Pocket stores your keys and passwords safely on your device, giving you full control over your assets and accounts.

Safepal Wallet

Safepal Wallet is a secure and reliable choice for storing popular tokens like opBNB, BEP20, and ERC20, making it a top wallet for Ethereum and other cryptocurrencies.

Metamask Wallet

MetaMask is a leading self-custody wallet, trusted by millions worldwide, providing secure and simple access to Web3 and blockchain apps.

THE FULL POWER OF META UNITY – WEB3 PROJECT

M & T
(Matrix & Tier Strategy)

A one-of-a-kind marketing project offering 50% bonuses via a 3x3 matrix and 25% through a 12-tier referral system, plus MU Energy Tokens to mint NFTs again and again.

M & T
(Matrix & Tire Strategy)

12 Rank Slots with Two Types of Referral Programs: M12 and T12.

UNLIMITED REWARD

%

The 12 Rank/Slot cycles can be repeated endlessly with no limits.

M & T

100% distribution within the partner network – instant, peer-to-peer profits with no delays and no need for manual withdrawals.

DAO

Rank/Slot activation prices are set by the DAO.

Integration with other projects

NFT

NFT integration across all projects.

Getting Started is Simple:

Your first transaction of +/- **0.001 BNB** (**BSC BEP20**) serves as your registration. Once registered, you can join any future **M&T** programs without signing up again — keeping you active in the ecosystem as it grows.
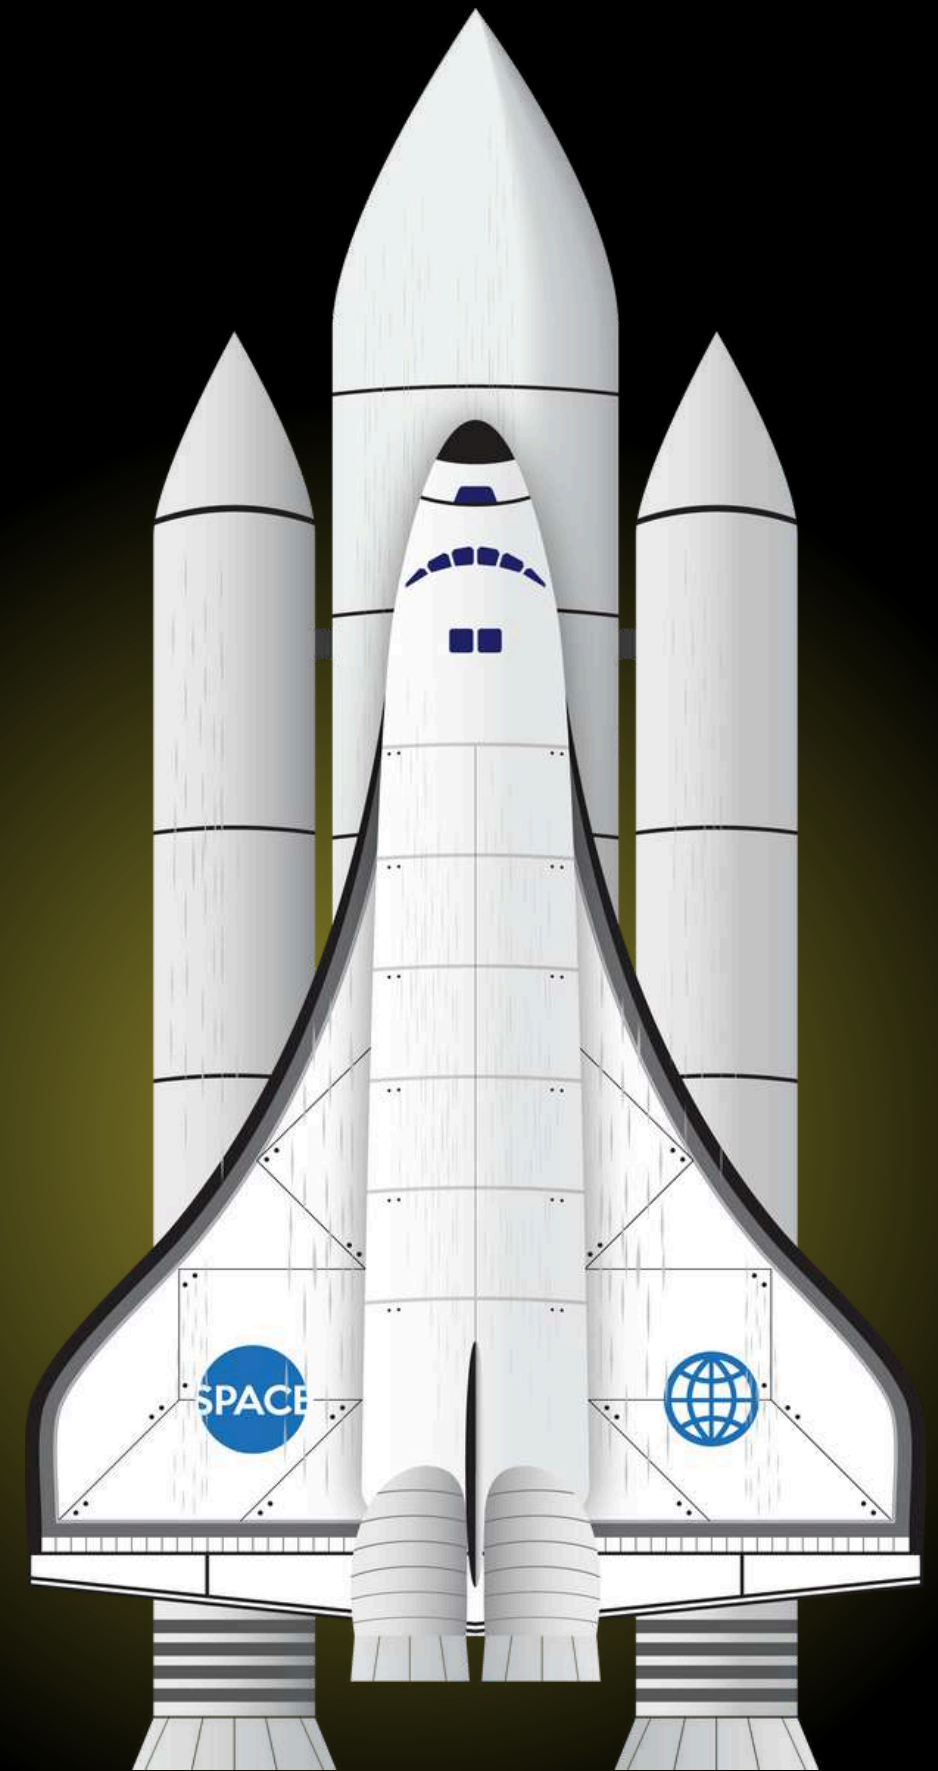

TO BEGIN:

- Use **USDT** (BSC BEP20), available on any DEX.
- Keep a small amount of BNB tokens to cover gas fees.

AND

Register using the referral link of the person who introduced you, so your future partners stay connected through your link.
Stay ready, stay connected !

M & T-12 Program Rank Structure

The **M & T-12** Program features **12 progressive Ranks/Slots**, each priced at double the previous one, powered by Möbius Loop Technology. This system allows for scalable earning and advancement as you move up through each level.

M & T: Integrated Structure

The **M & T** system supports seamless integration with multiple programs inside the Meta Unity Ecosystem.

M12 Structure: A compact 2-level matrix involving 13 participants: 1 upline, 3 direct (on first-line) referrals, and 9 second-line referrals.
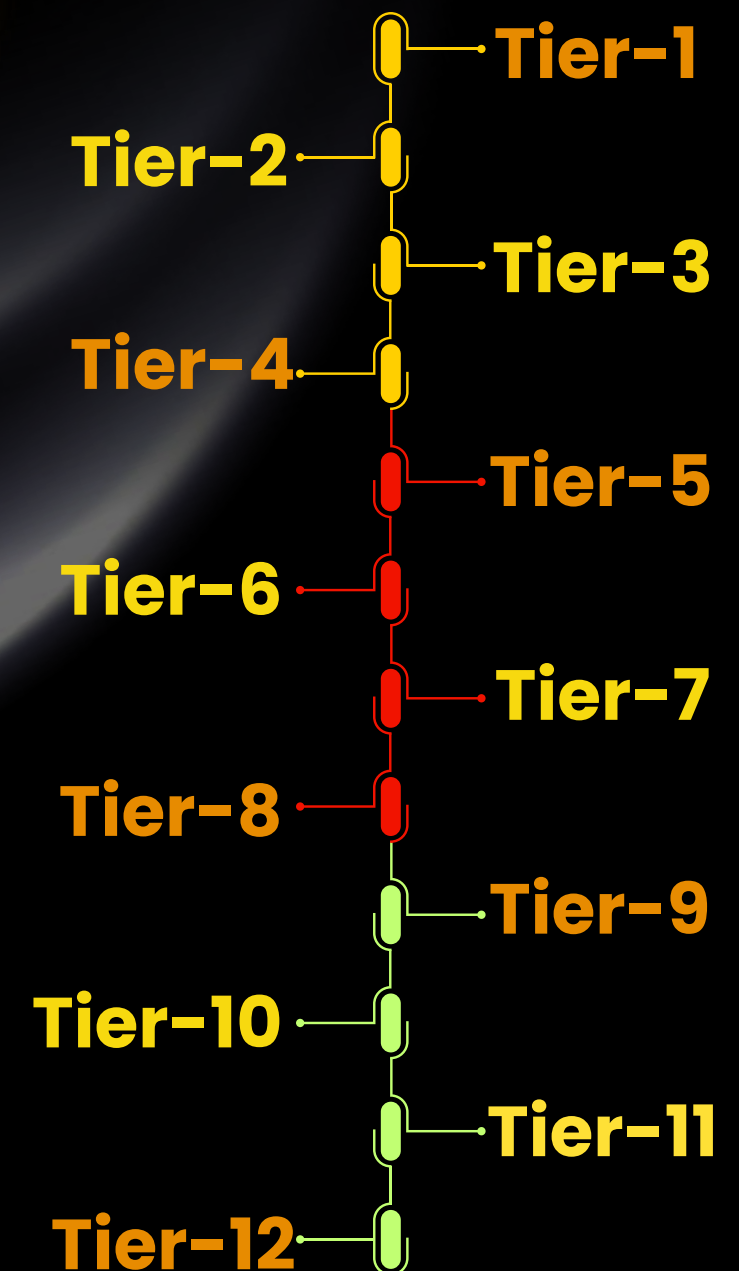

M & T Dual Referral Model – Each Rank/Slot activates two referral systems simultaneously: **m12 Matrix** & **t12 Tiered Network**

T12 Structure: A powerful 12-level network featuring: 1 upline, unlimited first-tier referrals, along with unlimited generations of referrals cascading across 12 levels.

M 12

T 12

Together, **m12** and **t12** operate in sync to maximize both depth and breadth of earnings and reach.

Matrix & Tier Strategy

50%: EARNINGS FROM M-12 (3X3 MATRIX - 2 LEVELS)

Your second line (9 people) generates **9 payouts directly to you.**
Payouts from your first line go to your upline.
Matrix positions are filled teamwide, not based solely on your referrals.
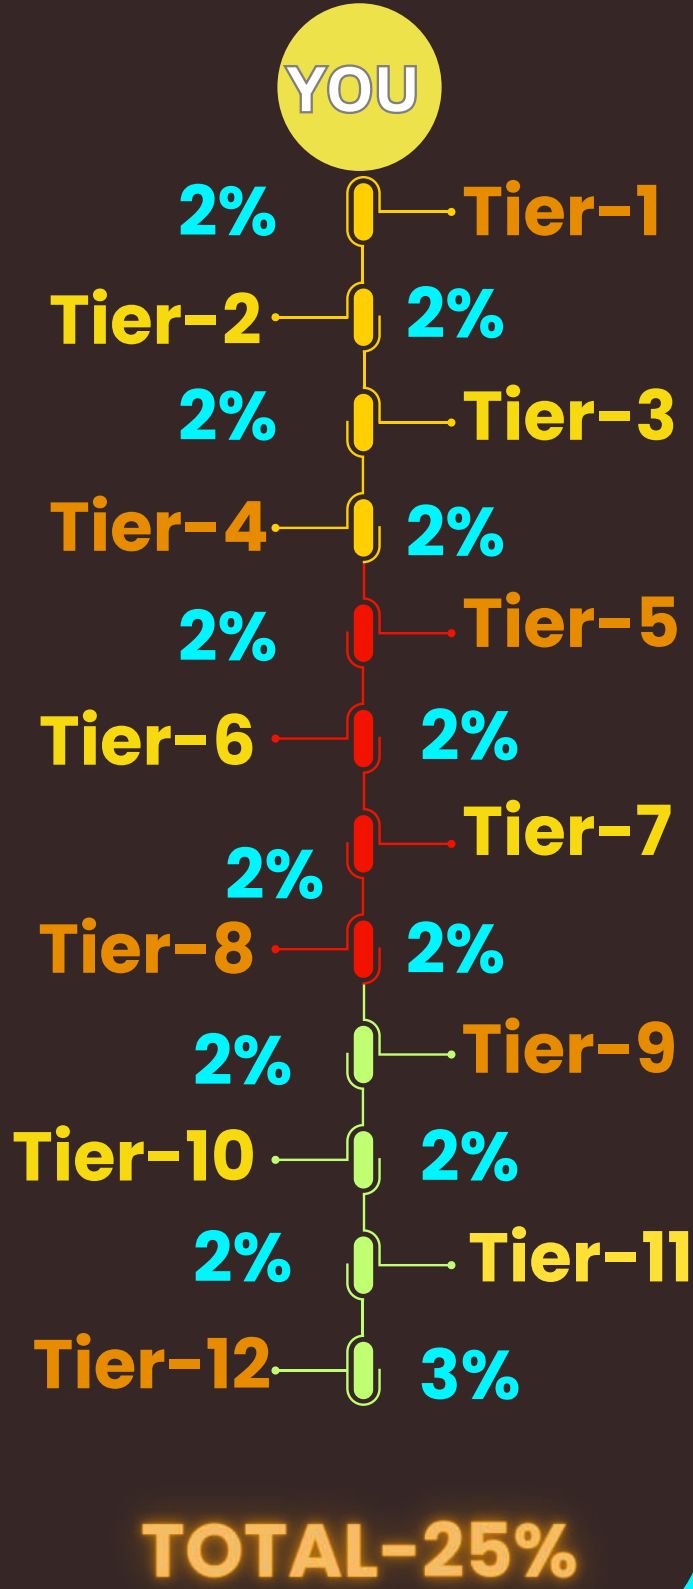

25%- EARNINGS FROM T-12 (12-LEVEL TREE):

You earn from all **12 levels of your generation tree**, as long as you hold the **same active rank**. Every active partner in your structure can contribute to your income.

TOTAL-25%

One Cycle = Up to 450% Total Profit (9 x 50% from each).

Team work fills the structure.

Shared effort = Shared success!

M & T System Overview

When you activate your first Rank/Slot, your payment is distributed across **12 upline partners**. You are then automatically placed in their **3x3 Matrix**—either on the **first or second line**—and also locked into the first tier of your sponsor's referral structure.
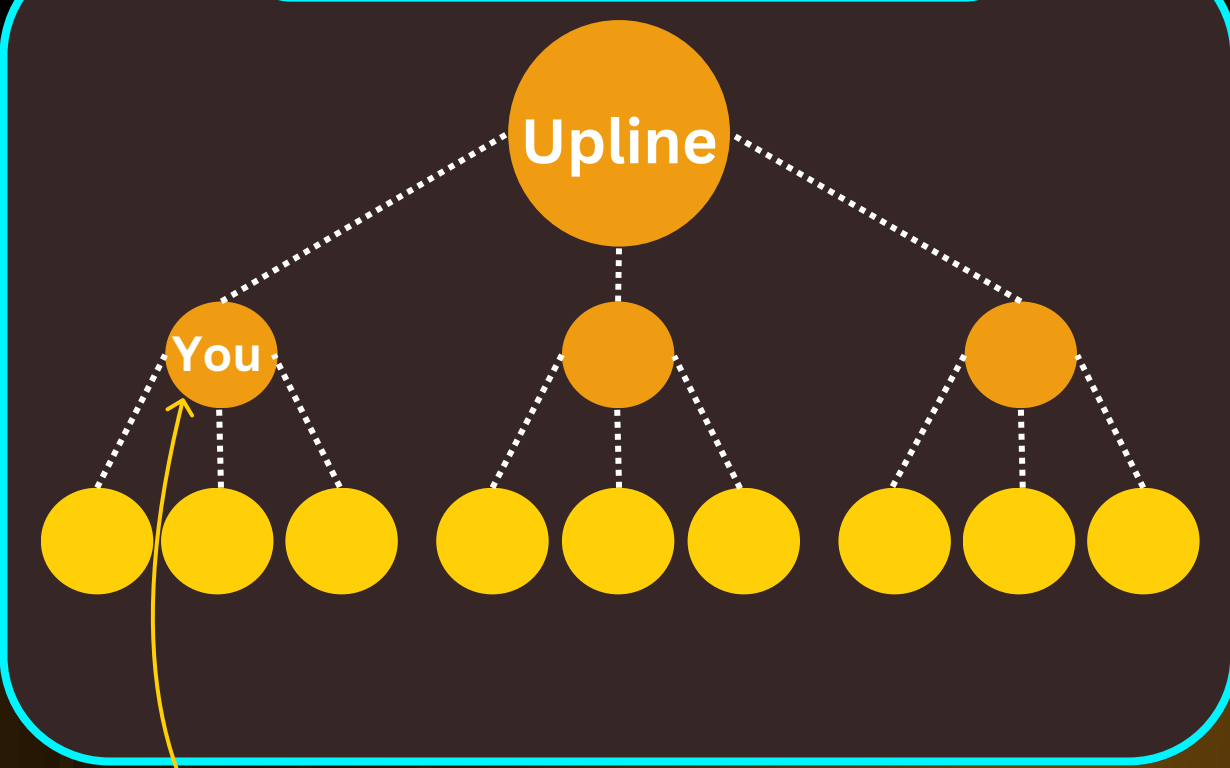

This setup allows both **you and your uplines** to repeatedly earn from the **3x3 Matrix** and **12-tier referral system**.

As your network grows, your referrals may also support your upline's structure, making it **a team-powered system** where placements and earnings are **shared**, regardless of who originally invited each participant.

Result: Collective growth = Shared success!

M & T SYSTEM

There are several methods for filling positions within your referral structure.

Your Direct Actions: When you invite partners using your referral link, you fill positions directly within your **M & T** structure.

Actions of Your Upline Partners: Spillovers from your upline partners can help populate your first-line positions.
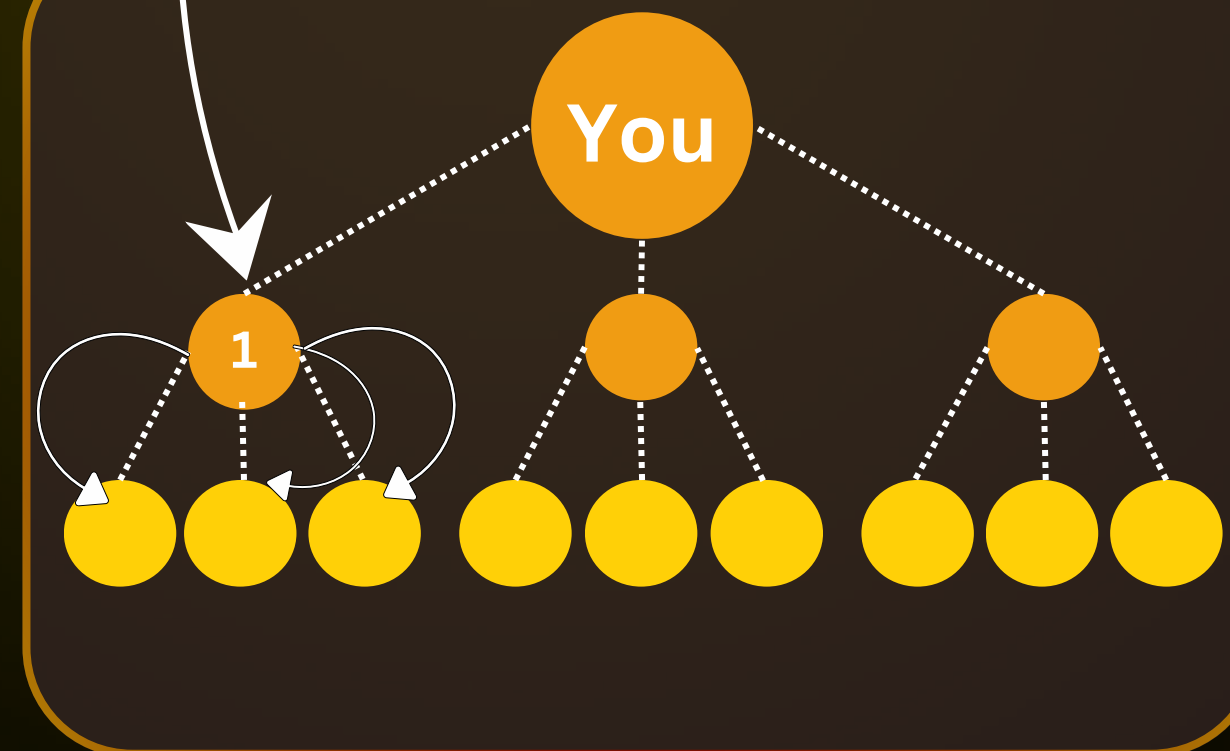

Actions of Your First-Line Partners: As your first-line partners invite others and fill their own tiers, they can also help fill positions in your second-tier partner slots.

M & T: Marketing Overview

The **M & T** Marketing system operates in **12 levels** per cycle, with the **M12 matrix** filling the first two lines and the first-generation structure simultaneously. This also grants a **Tier position**, allowing for **unlimited recycling** under the same sponsor.

The goal is to build **a powerful and expansive marketing network**, prioritizing both **growth and quality partnerships**.

Ranks/Slots must be activated **in order**, one after the other, starting from **Rank 1 through to Rank 12.**
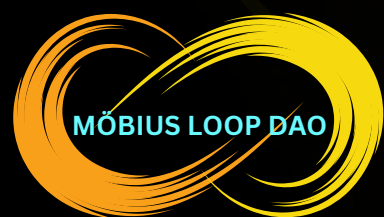

% No earning limits.
No cycle Restrictions.
Unlimited potential.

MÖBIUS LOOP DAO
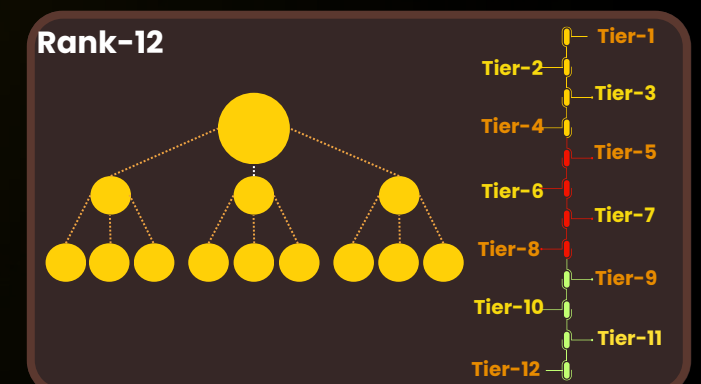

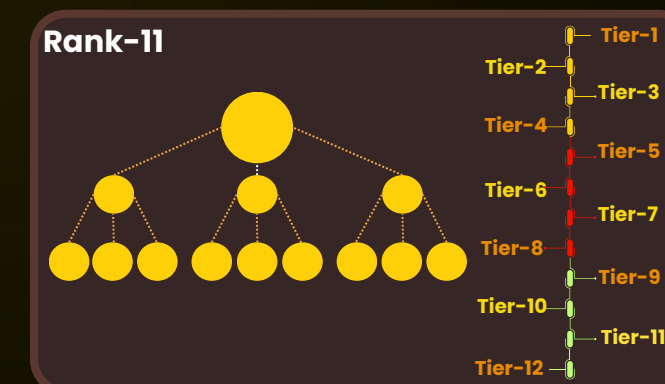

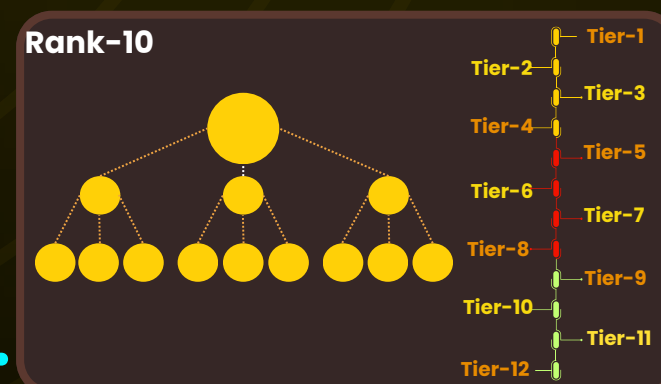

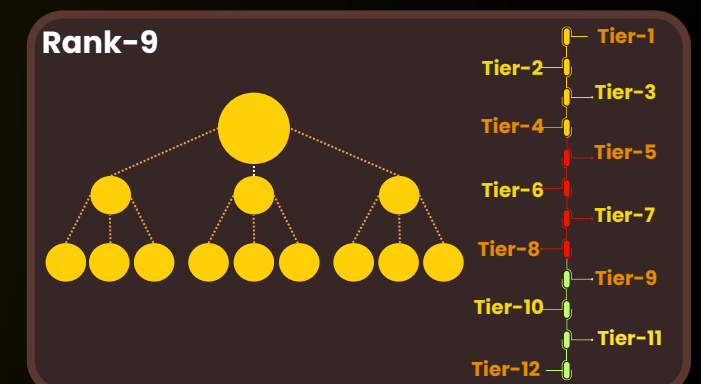

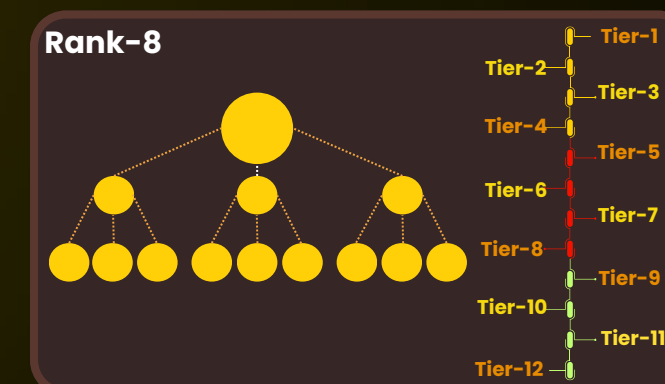

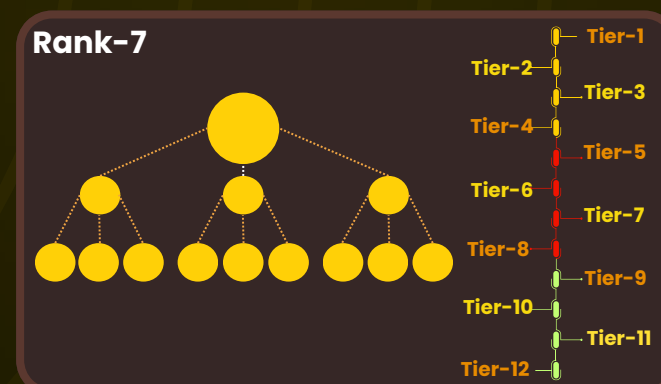

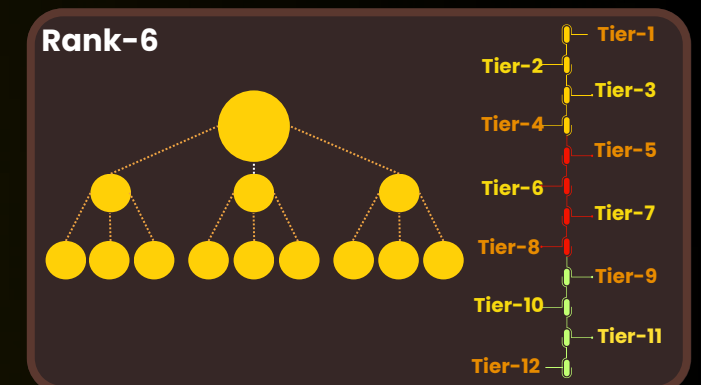

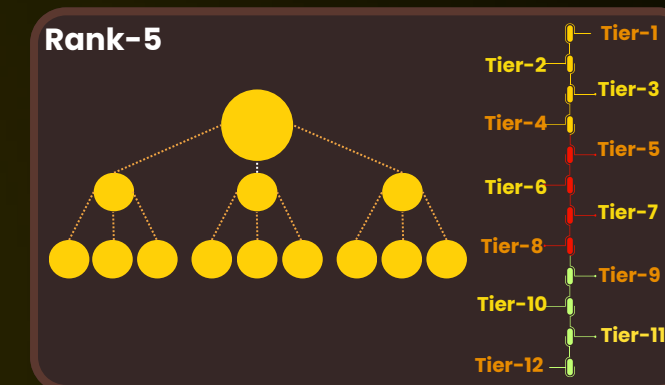

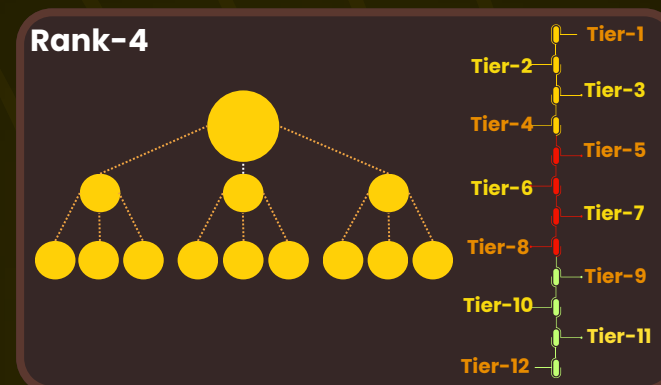

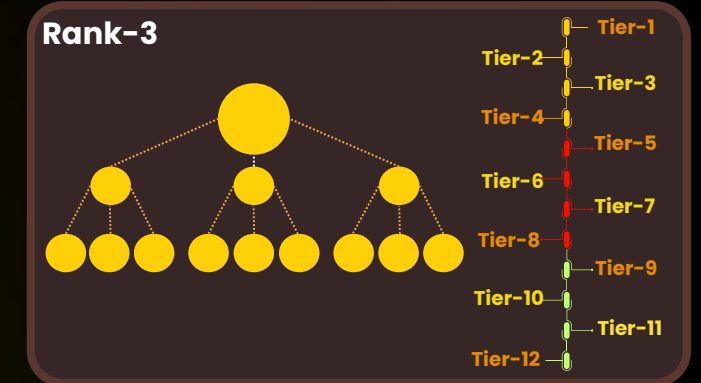

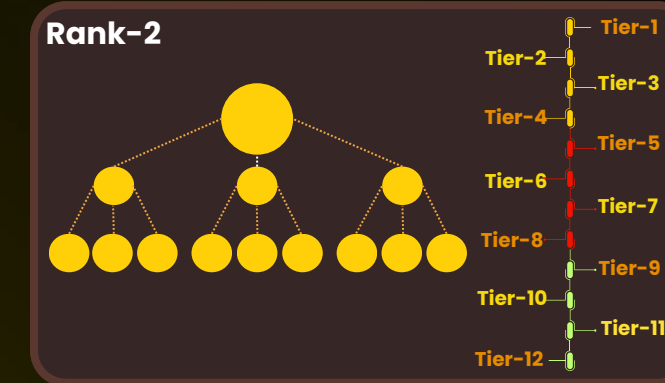

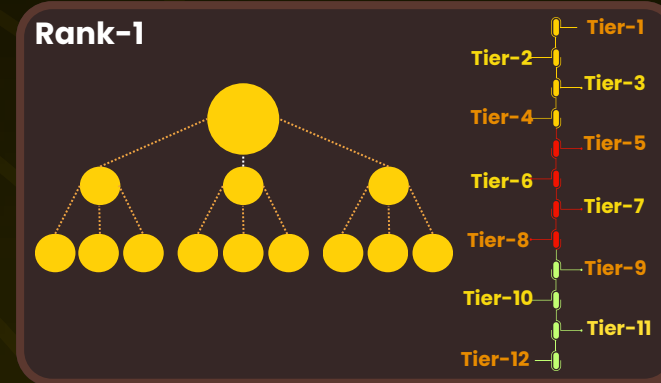

AUTO UPGRADE

Auto upgrade: Automatic activation of next Rank/Slot.

Four payouts from partners, in every structure except **Rank/Slot 12,** are allocated **Only for 1st time** activating the next level as soon as it is filled.

⬆ **Auto Upgrade**

If your **next Rank/Slot** is not activated in advance, the auto-Upgrade function is enabled by default in **smart contract -** this ensures you don't miss out on potential profits.

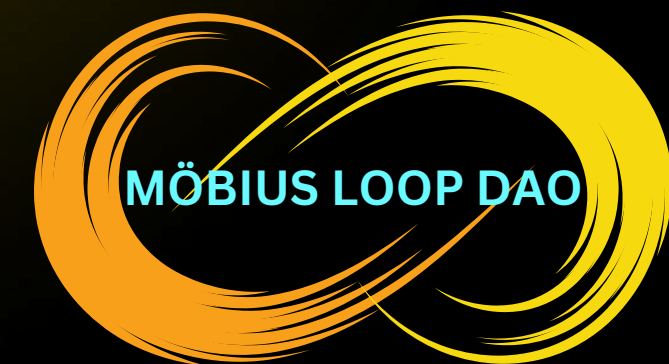

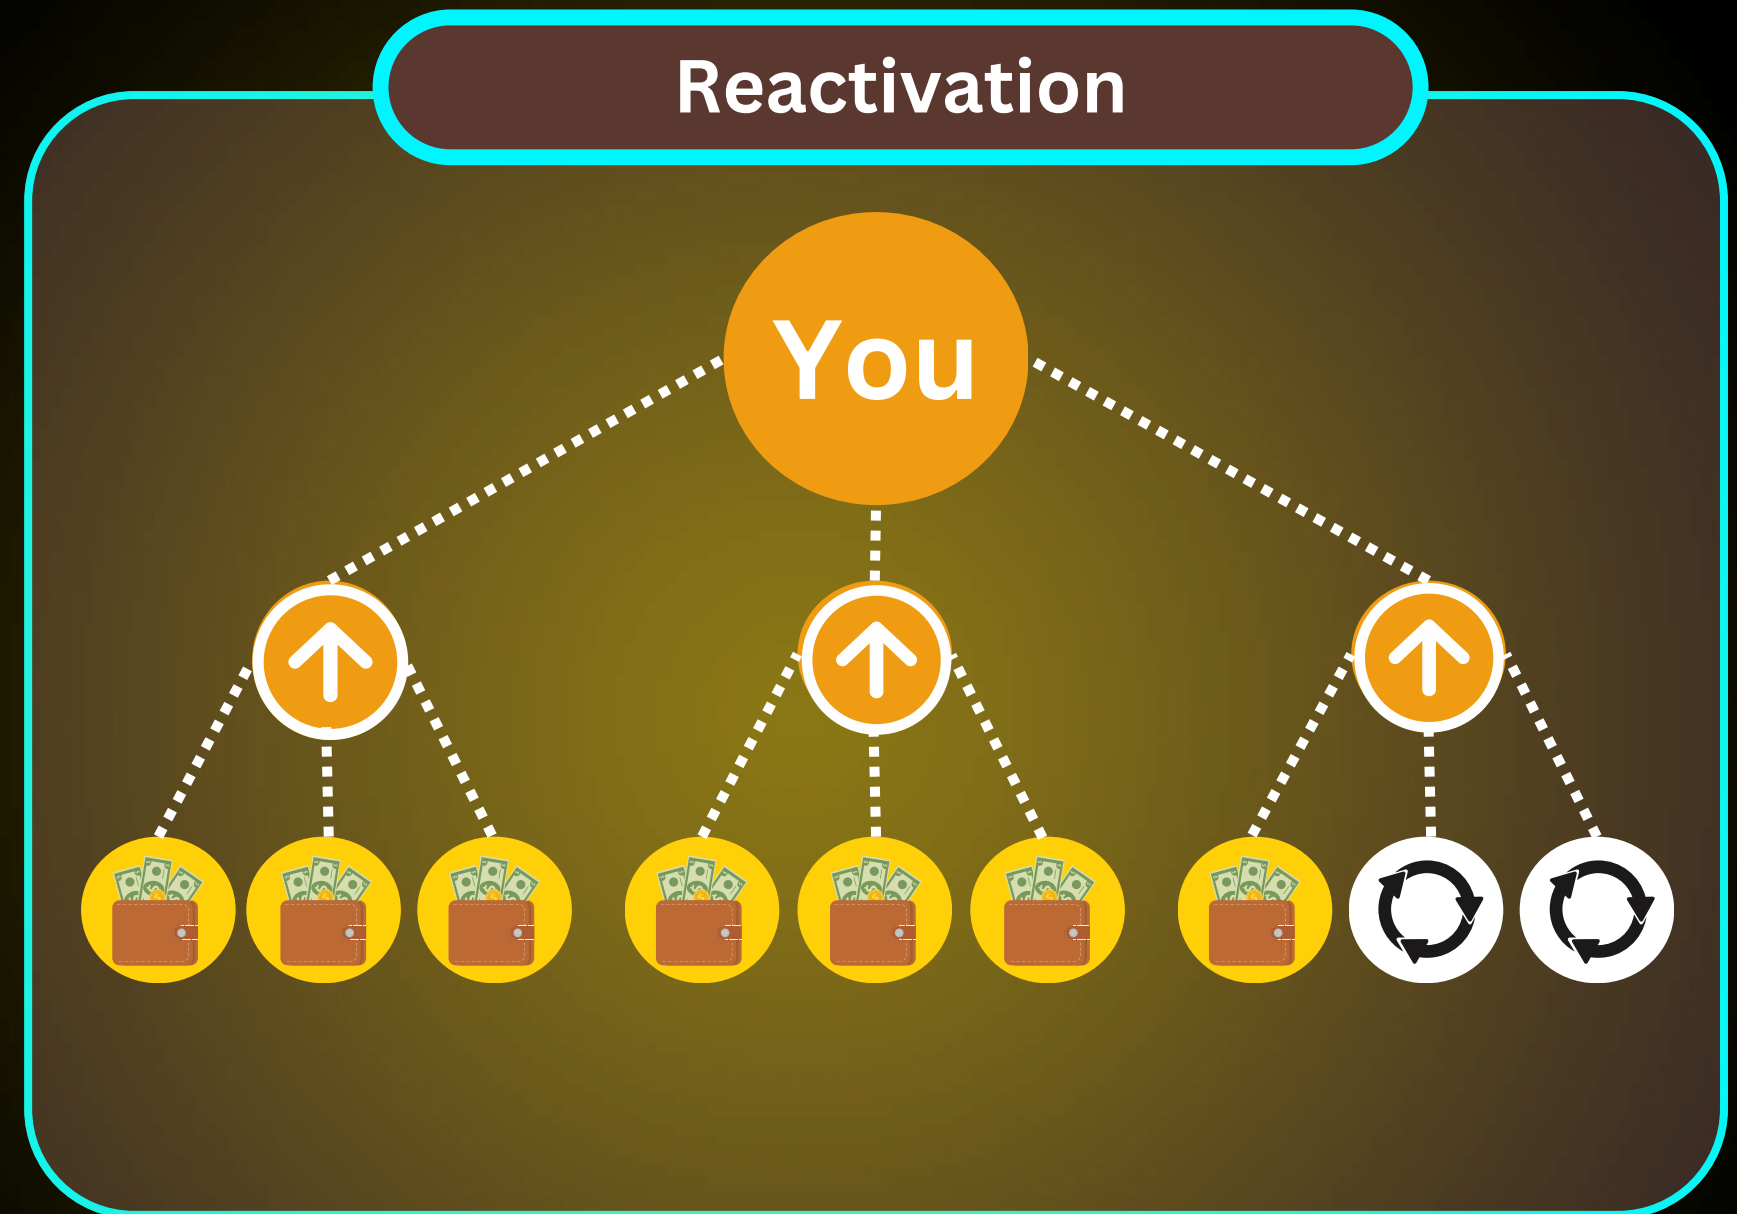

AUTO UPGRADE

MÖBIUS LOOP DAO
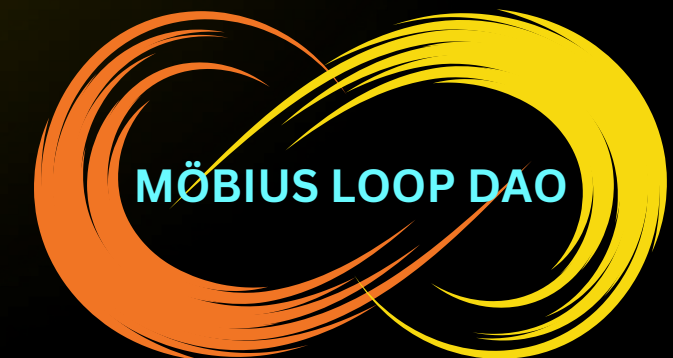

REACTIVATION

Reactivation: repeated activation of a Rank/Slot

The final 2 payout in the structure - the **11th and 12th** in **M-12** are directed toward **reactivation & 12 Tier income distribution,** this means the same Rank is activated **again & again.**

MÖBIUS LOOP DAO

FAST EARNINGS

To avoid missing out on profits, activate at least 5 Rank/Slot once.

Statistically, most users activate at least five Ranks.
Invited partners can quickly fill all Ranks / Slots, potentially surpassing you in the referral tree.

For this reason, it is recommended to active more then **five levels** at once to ensure you don't miss potential profits.

MÖBIUS LOOP DAO
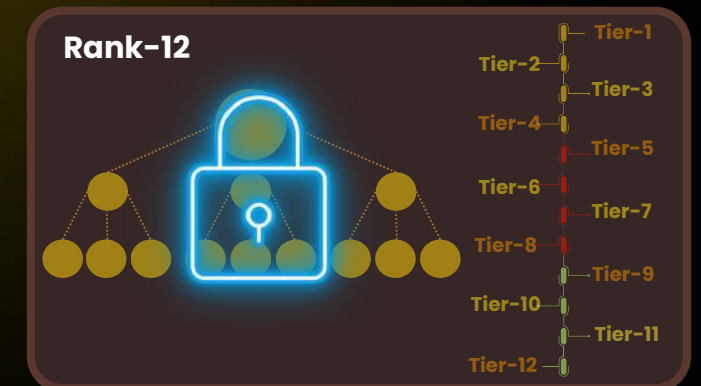

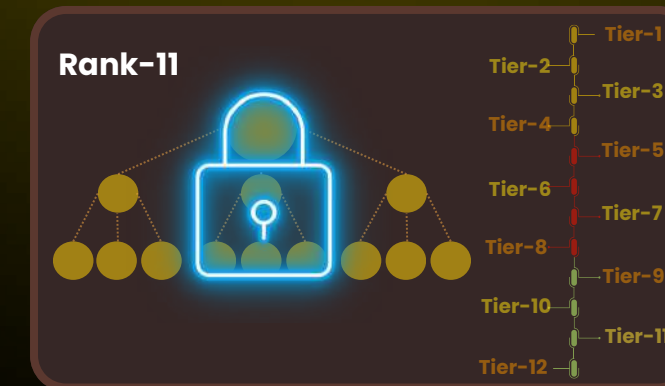

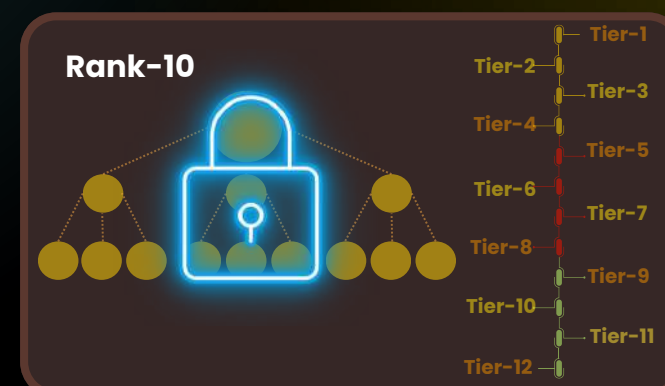

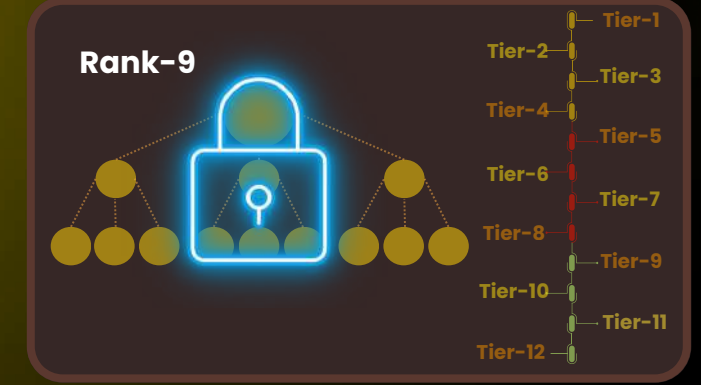

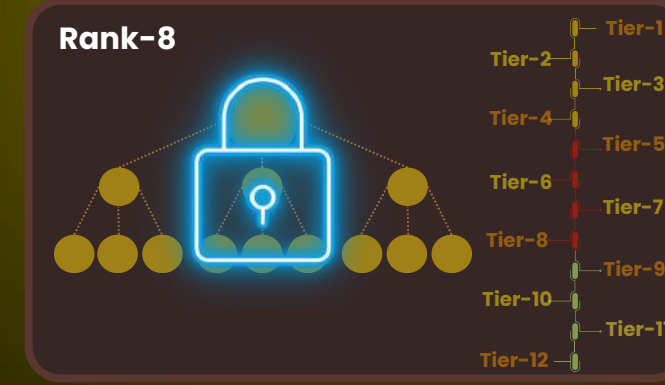

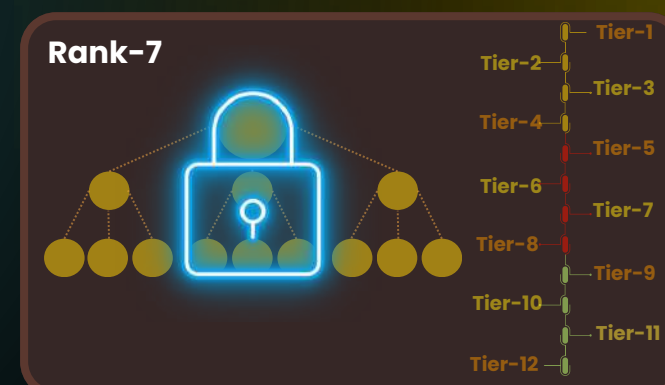

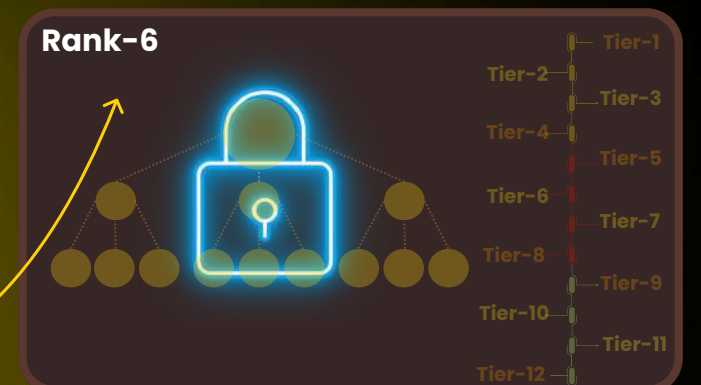

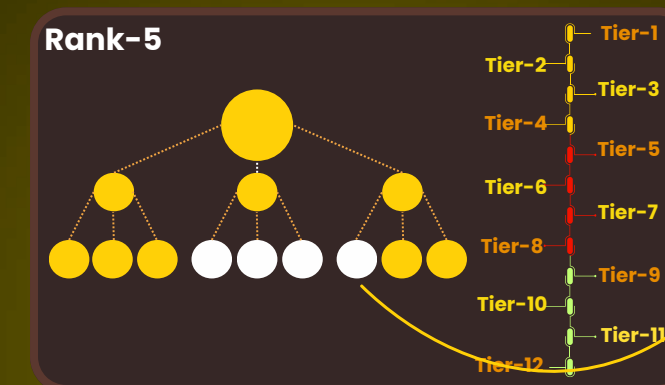

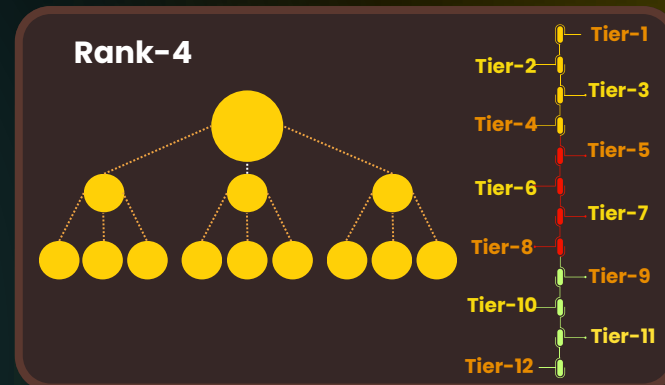

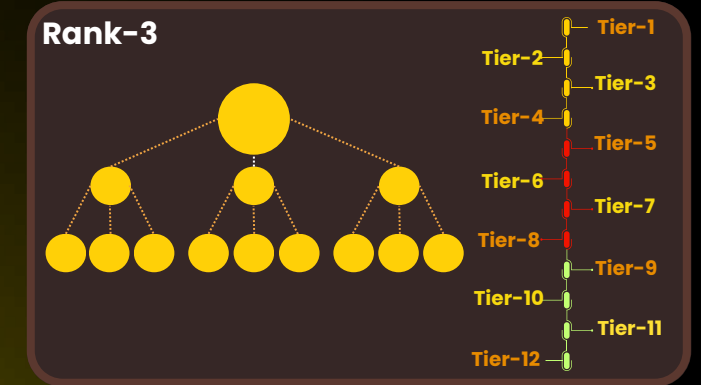

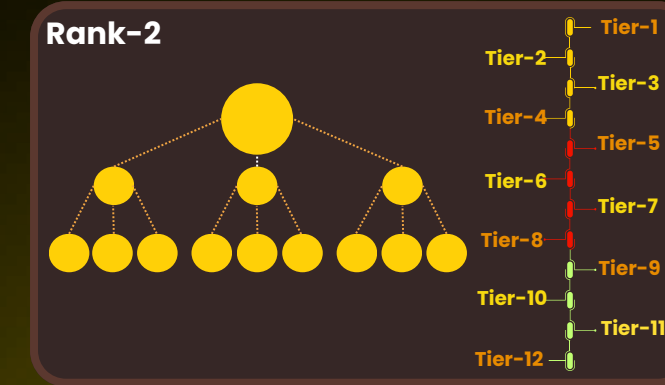

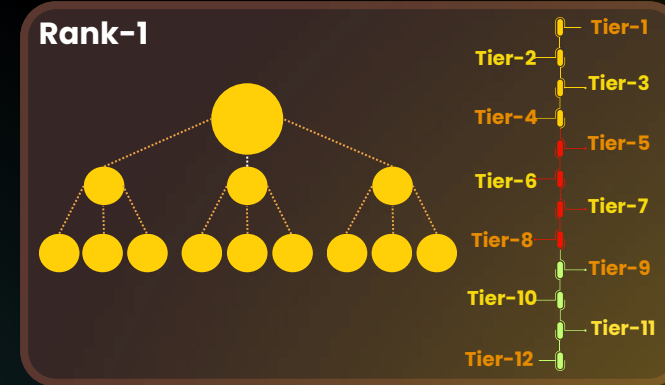

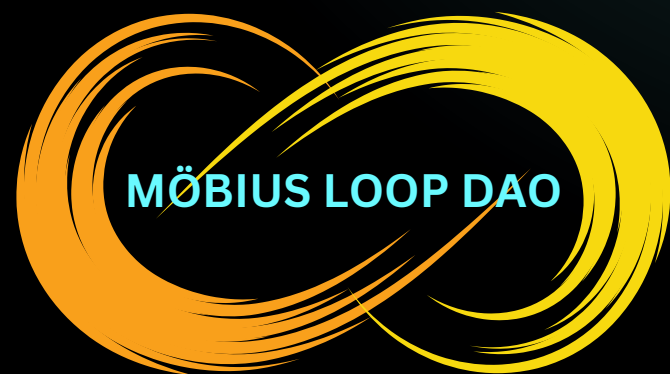

NET PROFIT - M 12 (ONE CYCLE)

The net profit from completing a full cycle of 12 Ranks in **only M-12** is approximately **46,080.00 USDT,** taking into account the Automatic **Upgrade and Reactivation** features.

In this scenario, you not only earn a net profit but also receive **12 active Ranks/Slots,** which will keep generating additional earnings.

In reality, the net profit will be much higher, as the lower levels fill up more quickly. Furthermore, there is no limit to the number of slots that can be active at the same time.

NET PROFIT - T 12 (ONE CYCLE)
